SUMMARY

Transformed ideas into user-friendly apps, leading the FindOut startup for two years—designing in Figma, developing with Flutter and Firebase, and launching a web app connecting students to hotel rooms and restaurant menus with Algolia search and API integrations.

EXPERIENCE

Flutter Developer (Collaboration), Ingest (Fitness Tracking App) Sep 2024 – Nov 2024

- Developed camera feature with Machine Learning API integration for instant nutrition predictions, improving user engagement.
- Built cross-platform authentication, multi-language support, and optimized performance for a scalable fitness app.

Flutter Developer Intern, Internship Pakistan Feb 2024 – Apr 2024

- Delivered cross-platform projects using clean architecture, applying practical solutions to real-world mobile tasks.

Flutter Developer Intern, Digital Empowerment Network Jul 2024

- Designed Flutter components and integrated APIs, collaborated with team to deliver optimized, user-ready projects within a one-month internship timeline.

PROJECTS

FindOut App | Dart, Flutter & Firebase | <https://findout.com.pk/>

- Led a two-year startup, designing UI in Figma and building a web app with real-time Firebase updates and Algolia search.
- Integrated REST APIs and optimized cross-platform performance for scalable, user-friendly local services.

Full Stack Ecommerce App | Dart, Flutter & Firebase | [Github Project Link](#)

- Developed front end with Dart and Flutter, integrating packages for a seamless UI/UX.
- Utilized RX Dart as fake backend and Firebase as real backend.
- Added add-to-cart, buy-now features, and wrote unit, widget, and integration tests for quality assurance.

SKILLS

Dart
Supabase
Figma

Flutter
REST APIs
WordPress

Firebase
Git & Github

EDUCATION

B.Sc in Computer Systems Engineering (Major: Artificial Intelligence)

Mirpur University of Science & Technology (MUST), Mirpur (AJK)

- CGPA: 3.4 out of 4.0.
- Relevant Coursework: Computer Programming, OOP, Data Structures and Algorithms, Artificial Intelligence and Machine Learning and Mobile Application Development.
